

PARTS MANUAL

SJ1256 THS

TELEHANDLERS

205154AH
October 02 2026
ANSI

This manual is for telehandlers with serial numbers:

SJ1256 THS: 87 410 001 - 87 499 999

Please refer to the website (www.skyjack.com) for contact information, other serial numbers, the most recent technical manuals, animations, and USB software.

The original instructions are in English.

Foreword

General

The information contained in this manual is designed to aid the user in locating and identifying replacement parts. Component parts of various assemblies and subassemblies comprising the work platform are illustrated and accompanied by a descriptive parts list. Exploded drawings are used to show relative location of component parts in disassembly order. If a part cannot be found in this manual, contact your local Skyjack Parts Department for assistance.

Parts Ordering Information

When ordering replacement parts, the complete part number and description should be used to ensure proper identification and delivery of the desired item. This complete identification should also be used when requesting equipment information.

Method of Listing

Parts are listed in order according to the reference number shown in the illustration, followed by a full description based upon the "NOUN FIRST" method. That is, the noun name of the part is listed first, then the modifying description information which serves to specifically identify the item. For example: PIN, Clevis.

Assemblies at the beginning of a parts list may be identified with a reference letter: A, B, C, etc. These letters are used to identify different configurations of the assembly. Individual parts in these lists have corresponding letters after their description to identify which assembly it is used in. If a part does not have a reference letter, it is used in all of the assemblies.

Bullets (•) are used to show the assembly structure, or parent/child relationship. A part listed at the beginning of the parts list without a bullet before the description is the main assembly, and all of the parts below it with one bullet are the subcomponent parts of that assembly. Two bullets denote a subcomponent of a subcomponent, etc.

Example:

Main Assembly A

- Part 1 (subcomponent of Main Assembly A)
- Part 2 (subcomponent of Main Assembly A)
- • Part 3 (subcomponent of Part 2)

Quantities

The quantities required to complete the assembly are given for each part. If the quantity is (AR), it is understood that the quantity may vary when the machine is equipped with certain options. Order quantity as needed.

How To Order Repair Parts

1. Address all orders to your local SKYJACK dealer.
2. Specify model and serial number of the work platform (found on the serial number plate).
3. List the quantity needed.
4. List the length needed (if it is a bulk item).
5. List the part number and description as shown in this manual for each item.
6. Show the billing and shipping address and the name of the individual, if possible.
7. Suggest the best routing.

Customer: _____

This exploded view diagram illustrates the assembly of a washing machine door. The central component is the door body (1), which features a large circular window. Key parts shown include:

- Door Body (1):** The main structural component.
- Door Panel (29):** The outer front panel that fits onto the door body.
- Seals and Gaskets:** Various seals are shown, including the main door seal (28) and smaller gaskets (e.g., 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43).
- Internal Components:** The door body contains internal parts like the door lock (4) and the door hinge (5).
- Assembly Instructions:** Dashed lines indicate the correct alignment and sequence for installing each part.

8.1 Standard Hose Numbering System

Using the number above as an example, H1104 0081 2, this hose requires a 37° JIC female swivel fitting on one end, and a medium length 90° JIC female swivel fitting for the other end. The hose must meet or exceed the S.A.E. 100R13 hose specification, and be a total of 81-1/2" long.

NOTE

Hose ends and hose must be from same manufacturer per S.A.E. J1273 Nov. '91, Sections 3.10 and 4.2. Hose ends and hose must be of the same size i.e. #4 size fittings must be used with #4 size hose.

Section 12 – Tables

12.1 Recommended Fluids

Model SJ1256 THS		
Engine		
Fuel Type		Ultra Low Sulfur Diesel (EN 590, ASTM D975) or Biodiesel B20
Fuel Tank Capacity		35 gal (132 L)
Recommended Oil Type		SAE 15W40
Engine Oil Capacity		9.5 quart (9.0 L)
Coolant Type (Standard)		COOLANT-ANTIFREEZE 50/50 PREMIX *
Coolant Type (Cold Weather Option)		COOLANT-ANTIFREEZE 60/40 PREMIX *
Coolant Tank Capacity		4.2 gal (16 L)
DEF		Diesel Exhaust Fluid (DEF)
DEF Tank Capacity		2.4 gal (9.4 L)
Transmission		
Powershift	Oil Type	ATF DEXRON III
	Capacity	14.2 quart (13.5 L)
Axles		
Differential		SAE 80W/90 LS
Front Axle Capacity		13.7 quart (13 L)
Rear Axle Capacity		13.7 quart (13 L)
Planetary Wheel Ends		SAE 80W/90
Front Wheel Hub Capacity		1.9 quart (1.8 L) per hub
Rear Wheel Hub Capacity		1.9 quart (1.8 L) per hub
Hydraulic Oil		
Standard Factory Fill		ATF Dexron III
Type		ATF Dexron III or Equivalent
Tank Capacity		43.85 gal (166 L)
Grease Points		
Type		EP2 Grease
