🌐 Europe

TOUGH CONDITIONS. TOUGHER PEOPLE.

At Bobcat, we're not just building machines—we're also celebrating the people who push them to the limit. Because real strength isn't just built into machines—it comes from the people who operate them.

[LEARN MORE](#)

INTRODUCTION

ONE TOUGH ANIMAL

► OUR MISSION

We empower operators to accomplish more, while working in the toughest conditions and tightest situations. When our customers have the will, we provide the way.

► BOBCAT'S HISTORY

In 1958, Melroe Manufacturing Company introduced a compact front-end loader that evolved quickly into the M400, the world's first true skid steer loader. The company soon adopted what became the world-famous 'Bobcat' brand – and its success paved the way for the global compact equipment industry we know today.

► INNOVATION CENTER IN DOBŘÍŠ

New technologies and machines are rigorously tested to take on the toughest jobs.

► BOBCAT TODAY

Since developing compact excavators with Zero-House-Swing functionality in 1984, Bobcat has continued to innovate. Today, our equipment is known for providing all the power you need, where you need it, without any hassle.

PRECISION EVEN AT FULL POWER

► PERFORMANCE MEETS COMFORT

Bobcat's compact excavators are built around the operator and provide the solution to all of your business requirements by successfully blending high performance with smooth, intuitive controls and first-class comfort.

► SUPERIOR CONTROLLABILITY

Intuitive, personalizable controls make the workgroup feel like an extension of your hands.

► CONFIDENCE-BOOSTING STABILITY

You can rely on 360° stability in any situation, even when digging over side or handling heavy loads.

► PERFORMANCE & PRODUCTIVITY

The pure digging power gets the job done at unmatched speed, whether it's heavy digging or fast trenching.

► MULTI-TOOL VERSATILITY

Transport and use multiple tools with ease thanks to up to 5 AUX lines and an A-SAC option.

PERFORMANCE

► SMOOTH OPERATION

An exceptional combination of signature Bobcat high performance, best-in-class controllability and intuitive controls now meets a state-of-the-art hydraulic system for unmatched precision and reduced fuel consumption.

► DEPENDABLE ENGINES

Time-proven Bobcat D18 and D24 engines – used in thousands of Bobcat machines worldwide – now in a new Stage V compliant version with improved performance characteristics.

POWER WHERE YOU NEED IT

► ZERO HOUSE SWING – E50z, E55z

The Bobcat Zero House Swing (ZHS) concept enhances Zero Tail Swing (ZTS) functionality, allowing operators to work in extreme proximity to walls. The design protects the front upper-structure corners turning within the swing circle and eliminates the protrusion of the boom swing cylinder during parallel digging.

► RIGHT TOOL FOR THE JOB

Professionals know the value of matching their equipment to the work at hand. Bobcat's lineup includes a range of options to meet the needs of every job. While conventional models feature low overhang over the track profile, Zero House Swing models eliminate overhang altogether.

Zero House Swing (ZHS)

Zero Tail Swing (ZTS)

STEP INSIDE

► ALL-DAY COMFORT

Enjoy ample space and leg room inside the cab, ergonomic interior design, easy access to critical controls and optional comfort features such as a heated seat with high back and head rest.

► TOUCH CONTROLS

Optional 7-inch touch screen with Bluetooth, hands-free calling and media streaming. Automatically switching to Dark Mode in low light.

► FULLY AIR CONDITIONED

Stay comfortable in any weather thanks to automatic air conditioning.

► STORAGE FOR ESSENTIALS

Smart interior design with dedicated holders and storage for everyday items.

BUILT TO LAST

ENGINEERED TO PERFECTION

Feel the superior fit and finish of the exterior, covers, cab, controls and workgroup down to the last bolt and screw. Heavy-duty counterweight and side channels add even more protection for all other components.

HASSLE-FREE MAINTENANCE

Thanks to easily accessible maintenance points, easy-to-replace wear parts, and extended service intervals (the first necessary after 500 hours), taking care of your Bobcat excavator is as simple as it gets.

MACHINE IQ

BOBCAT® Machine IQ Wireless Communications enhances the support for your Bobcat machine.

- Durable built-in monitoring electronics
- Data is available to our machine monitoring specialist
- Maintenance is optimized for your business
- Data-driven services maximize uptime

STANDARD WARRANTY

Bobcat Company develops every machine to the highest standards of quality and durability. That's why our standard warranty provides 24 months or 2 000 operating hours (whichever occurs first) of coverage.

**THERE'S NO TIME
FOR DOWNTIME.
STAND UP TO THE
HARSHEST CONDITIONS.
DAY AFTER DAY.**

PROTECTION PLUS EXTENDED WARRANTY

Enjoy total peace of mind with Protection Plus® extended warranty. Providing the same level of protection as the standard warranty, Protection Plus also reflects different customer needs and expectations by offering a choice of durations and annual operating hours. According to your needs, you can benefit from the coverage for up to 5 years or 6 000 engine hours. And Protection Plus is transferrable – so it will likely increase your machine's resale value.

BOBCARE

A long-running machine starts with proper planned maintenance. And it helps protect against repair costs and sudden failures when you're counting on your machine to work.

- Avoid risk by preventing major repairs and complete failures.
- Accomplish more by reducing downtime and increasing your productivity and profitability.

E50z

► COMPACT YET POWERFUL

This compact, light and affordable compact excavator packs a surprising punch with plenty of power and Zero House Swing.

E55z

► SUPERIOR PERFORMANCE

Bobcat's largest compact excavator with Zero House Swing represents a step up in stability and power, with an optional long arm for greater working range.

CHOOSE YOUR ANIMAL

E60

► MAXIMUM POWER AND COMFORT

The flagship E60 offers the highest performance, stability and comfort, with the biggest cab in its category and a powerful 55 hp engine.

► CONQUER EVERY CHALLENGE

*Roll Over Protective Structure (ROPS) – Meets requirements of ISO 3471.
Tip Over Protective Structure (TOPS) – Meets requirements of ISO 12117.
Falling Object Protective Structure (FOPS) - Meets requirements of ISO 3449.

PERSONALISE YOUR MACHINE

Sometimes, we all want to add a specific functionality or a personal touch to the machine. Choose from a list of comprehensive options and customise your Mini-Excavator to your heart’s content!

MULTI-TOOL CARRIER

► **BOBCAT ATTACHMENTS**

Get more versatility and efficiency with Bobcat attachments and tools.

- The largest choice of attachments in the industry
- Match performance to your Bobcat machine
- Work harder with stronger components and construction.
- Rest easy with the 12-month warranty on every genuine Bobcat attachment.

Breakers

Flail mower

Actual attachment compatibility may vary based on different machine configurations. Contact your dealer for actual attachment compatibility.

► **ATTACHMENTS**

General

- Augers
- Breakers
- Flail mowers
- Hydraulic clamp
- Laser equipment
- Plate compactor
- Rotary grinder

Buckets

- Clay spade buckets
- Digging buckets
- Grading buckets
- Skeleton buckets
- Tilt buckets

Couplers

- Bobcat hydraulic pin grabber
- Hydraulic coupler (HS03)
- Hydraulic coupler (HS03) with tilt function
- Klac coupler model E
- Mechanical coupler (MS03)
- Mechanical coupler (MS03) with tilt function

MULTI-TOOL CARRIER

► **VERSATILITY**

Up to 5 independent hydraulic auxiliary circuits:

- AUX1 – general purpose
- AUX2 – supporting functions (rotation)
- AUX3 – clam shell bucket (bucket diverter)
- AUX4 – tilting coupler control
- AUX5 – hydraulic coupler control

New ‘Selectable Auxiliary Control’ (SAC) system allows control pattern customization and optimal attachment fit (integral part of AUX4 option).
